Business Question and Visualization Report

Date	2 November 2026
Team ID	Not provided
Project Name	F1 Racing Data Analytics
Maximum Marks	5 Marks

Visualization development refers to the process of creating graphical representations of data to facilitate understanding, analysis, and decision-making. The goal is to transform complex datasets into visual formats that are easy to interpret, enabling users to gain insights and make informed decisions. Visualization development involves selecting appropriate visual elements, designing layouts, and using interactive features to enhance the user experience. This process is commonly associated with data visualization tools and platforms, and it plays a crucial role in business intelligence, analytics, and reporting

Business Questions and Visualisation

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations in Tableau. Well-framed questions help in identifying key metrics, selecting relevant data, and building visualisation that provide insights.

Business questions and existing Tableau worksheets:

1. **Which drivers have the most championship points?**
   - *Points by Driver — ranked driver comparison.*
   - *Worksheet in supplied workbook; no separate screenshot supplied.*
2. **2. Which drivers have the most race wins?**
   - *Wins by Driver — ranked driver comparison.*
   - *Worksheet in supplied workbook; no separate screenshot supplied.*
3. **3. Which drivers have the most podiums?**
   - *Podiums by Driver — ranked driver comparison.*
   - *Worksheet in supplied workbook; no separate screenshot supplied.*

4. Which teams have the most points?

Points by Team — team comparison.

Worksheet in supplied workbook; no separate screenshot supplied.

5. Which teams have the most pole positions?

Poles by Team — team comparison.

Worksheet in supplied workbook; no separate screenshot supplied.

6. Which drivers have the best average finish?

Avg Finish by Driver — lower average position is better.

Worksheet in supplied workbook; no separate screenshot supplied.

7. Which drivers have the most DNFs?

DNFs by Driver — compare retirement counts.

Worksheet in supplied workbook; no separate screenshot supplied.

8. Which drivers have the most titles?

Titles by Driver — ranked comparison.

Worksheet in supplied workbook; no separate screenshot supplied.

Additional: How are wins distributed across driver and team?

Team-Driver Wins Heatmap — color-coded matrix.

Worksheet in supplied workbook; no separate screenshot supplied.

Note: Eight questions correspond to existing Tableau worksheets. The workbook contains two dashboards and nine worksheets; no separate screenshots or public link were supplied.
